

Lab No	Lab Name	Page Number
Network Fundamental		
Lab 01	Observe How a Switch Operates (ARP)	
Lab 02	Cisco Command-Line Interface (CLI) Introduction	
Lab 03	Perform Basic Router Configuration	
Lab 04	Perform Basic Switch Configuration	
Lab 05	Configure Basic IPv4 Connectivity	
Lab 06	Configure Basic IPv6 Connectivity	
Lab 07	Reset/Recover Router Password	
Lab 08	Upgrading IOS for Routers & Switches	
Network Access		
Lab 09	Configure and Verify Layer 2 Discovery Protocols (CDP)	
Lab 10	Configure and Verify LLDP Configuration	
Lab 11	Configure VLAN (Access, Data, Voice, Default and Trunk)	
Lab 12	Configuring InterVLAN Routing on Cisco L3 Switch	
Lab 13	Configuring Router on a Stick using Cisco Router	
Lab 14	Configure a Dynamic (VLAN) Interface	
Lab 15	Examining Spanning Tree (STP) Process on Switches	
Lab 16	Configuring Rapid-PVST and PortFast	
Lab 17	Configure and Verify EtherChannel (LACP mode and Load Balancing)	
Lab 18	Install and Configure Cisco Wireless LAN Controller (WLC)	
IP Connectivity		
Lab 19	Explore Packet Forwarding	
Lab 20	Implement IPv4 Static Routing	
Lab 21	Implement IPv4 Static Default Routing	
Lab 22	Implement IPv4 Floating Static Routing	
Lab 23	Configure and Verify Single-Area OSPF	
Lab 24	Implement IPv6 Static Routing	
Lab 25	Implement First Hop Redundancy Protocol (HSRP)	
IP Services		
Lab 26	Configure and verify DHCP, DHCP client and DHCP relay	
Lab 27	Configure Static NAT	
Lab 28	Configure Dynamic NAT	
Lab 29	Configure Port Address Translation (PAT)	
Lab 30	Configure and Verify NTP Server and Client	

Lab 31	Configure network devices for remote access using SSH	
Lab 32	Cisco IOS Syslog Configuration	
Security Fundamental		
Lab 33	Implement Device Hardening (Console, Enable, VTY Password)	
Lab 34	Secure Device Administrative Access	
Lab 35	Configure and Verify Switch Port Security	
Lab 36	Configure and Verify Standard ACL	
Lab 37	Configure and Verify Extended ACL	
Lab 38	Configure and Verify Named IPv4 ACL	
Lab 39	Implementing Wireless Security (WEP, WPA, WPA2, WPA3)	
Lab 40	Configure WLAN using WPA2 PSK using the GUI	
Lab 41	Configure Remote Access VPN & Site to Site VPN	
Lab 42	Implementing DHCP Snooping	
Lab 43	Implementing AAA (RADIUS) Authentication	
Project		
Lab 44	Design Multi POPs ISP Network
